## **Council Information**

### Chief's Advisory Board Update

The San Leandro Police Department's Chief's Advisory Board was established in April 2013 under the direction of the Chief of Police. The board was created to act as a community resource for the Chief in the formation of strategies, development of community policing concepts and increasing public awareness. The Board is a forum for discussions concerning community concerns and is intended to be a reflection of the community's viewpoints. The monthly agenda and notes for these meetings are posted to the [website](#).

### Governor's Proposed Budget Local Public Safety Impacts

Governor Brown released the State's proposed budget and includes the Governor's goals and objectives for the forthcoming year and highlights significant issues, policies and initiatives. The Budget addresses local public safety issues through the Community Corrections Performance Grant (CCPG), City Law Enforcement Grants, and the Racial Profiling and Identity Profiling Act with an allocation of \$129.7 million, \$20 million, and \$10 million, respectively.

First, CCPG funding will provide incentives for counties to reduce the number of felony probationers sent to state prison by providing social services for felony probationers who reside in the City. Second, the City Law Enforcement Grant's goal is to increase positive outcomes between city police and the homeless community, persons with mental health needs, and high-risk youth populations. Consequently, San Leandro Police will have the opportunity to learn and apply for available funding to improve relationships with these special populations. Finally, the Racial and Identity Profiling Act of 2015 (AB953) revises the definition of racial profiling and requires the Attorney General to report on citizen complaints alleging racial or identity profiling for each state and local agency that employs peace officers. As of January 1<sup>st</sup>, San Leandro Police began updating citizen complaints and use of force tracking system to be able to meet the new minimum state reporting requirements. Although the City has until 2023 to comply with the legislation, the department is working with the vendor to ensure that these changes are integrated into the planned

computer upgrade in 2016. These coordinated upgrades will ensure that the City is compliant in early 2017, six years before the State issued deadline.

### SUMMARY AND RECOMMENDATION

This report is for information only, and no action is required.

The City will host two upcoming community outreach meetings to discuss the draft Downtown Parking Management Plan:

<b>When:</b>	<b>Audience:</b>	<b>Where:</b>
Tuesday January 26, 2016 8:00 a.m. to 9:30 a.m.	Downtown Business Outreach	San Leandro Main Library Estudillo Room 300 Estudillo Avenue San Leandro, CA 94577
Thursday January 28, 2016 7:00 p.m. to 8:30 p.m.	Downtown Resident Outreach	San Leandro History Museum Auditorium 320 West Estudillo Avenue San Leandro, CA 94577

### BACKGROUND AND DISCUSSION

The goal of the Downtown Parking Management Plan is to improve parking utilization by understanding how different City policies could impact user groups in the downtown. The plan analyses parking inventory, utilization, and turnover in the core downtown and periphery areas. The data was related to BART riders, employees of downtown businesses, shoppers, and residents who use the parking either for short durations or all-day. By understanding parking patterns, the City hopes to adopt a strategy that will aid in future land-use and economic development decisions.

In the downtown area, the City controls about 3,200 parking spaces, of which 1,740 are on-street and 1,460 are off-street parking in seven parking facilities, including the recently reconstructed downtown parking garage. The San Leandro Downtown Parking Management Plan seeks to:

- Better utilize the existing on- and off-street parking inventory
- Strategize best solutions for Downtown's short- and long-term parking needs
- Address multi-modal access needs for residents, employees, customers and commuters in San Leandro

This effort has been funded by the Sustainable Communities Technical Assistance Program (SC-TAP) of the Alameda County Transportation Commission. Under the direction of Community Development and Engineering and Transportation staff and in coordination with ACTC, two consulting firms (PlaceWorks and CDM Smith) developed the draft plan.

To allow all concerned stakeholders to express their ideas and concerns about parking in Downtown San Leandro, City staff and the consulting team conducted the first Downtown San Leandro Business Outreach meeting on Wednesday, July 15, 2015, and the first Downtown San Leandro Resident Outreach meeting on Wednesday, August 5, 2015.

With input derived from those meetings and comments from City staff, the consulting team prepared the draft Downtown Parking Management Plan. This draft Plan will be reviewed at a second round of community outreach meetings later this month. Through a mass mailing, flyers and postings on NextDoor and the City's website, businesses and residents of Downtown San Leandro and all concerned citizens have been invited to review the team's findings and recommendations and to provide comment on the draft Plan.

City staff and the consulting team anticipate the final version of the Downtown Parking Management Plan will be ready for public review by the end of February 2016, and the final Downtown Parking Management Plan will be adopted by the end of spring 2016. Consequently, proposed downtown parking improvement actions and projects identified in the Downtown Parking Management Plan could be programmed beginning in summer 2016.
