

NOTES:

1. All work shall be done in accordance with the Standard Specifications for Public Works Construction, the "GREENBOOK", the most current edition and all supplements thereto, adopted by the Southern California Chapter of the American Public Works Association and the Special Provisions (Technical Specifications) thereto adopted by the City.
2. A check valve shall be installed at all heads subject to lateral line drainage (Flow Control or approved equal).
3. Approved teflon based pipe compound shall be used on all treaded connections.
4. Install flood bubblers on uphill side of plant.
5. Adjust flow to suit species water requirements and soil conditions.
