

# City Manager's Weekly Update

Week ending October 21, 2011

## UPCOMING MEETINGS

- 10/24** City Council Work Session, CANCELLED
- 11/1** Rules and Communications Committee Meeting, 4:30 p.m., Sister Cities Gallery
- 11/1** Shoreline-Marina Committee Meeting, CANCELLED
- 11/7** City Council Meeting, 7:00 p.m., Council Chambers
- 11/8** Facilities and Transportation Committee Meeting, 4:00 p.m., Sister Cities Gallery
- 11/10** Business and Housing Committee Meeting, 4:00 p.m., Sister Cities Gallery
- 11/11** **Veteran's Day Holiday**, City Offices Closed
- 11/11** Airport Committee Meeting, CANCELLED
- 11/14** City Council Closed Session, Time/Location TBD
- 11/17** CC/SLUSD Liaison Committee Meeting, 4:00 p.m., TBD
- 11/18** Finance Committee Meeting, 8:15 a.m., Sister Cities Gallery
- 11/21** City Council Meeting, 7:00 p.m., Council Chambers
- 11/24 & 25** **Thanksgiving Day Holiday**, City Offices Closed

**To:** City Council  
**From:** Lianne Marshall, Interim City Manager

We discussed many items at the Alameda County City Manager's Meeting this week. Ezra Rapport, Executive Director of ABAG, discussed the Sustainable Communities Initiatives. We discussed the impacts of Stopwaste.org proposals regarding mandatory recycling and single use bag ordinances. We will schedule this topic at an upcoming City Council Meeting in November. We also heard from the County Administrator on the impacts of the Criminal Justice Realignment (AB109). I've attached a fact sheet from her office. Have a great weekend!

## Mark Your Calendar

18<sup>th</sup> Annual Trivia Bee (reminder)

**Friday, October 21, 6:00 p.m., Marina Community Center**

- San Leandro's 18<sup>th</sup> Annual Trivia Bee benefiting the San Leandro Library's Project Literacy program is being held tonight. The dinner starts at 6:00 p.m., the prize drawing starts at 7:00 p.m., and the Trivia Bee starts at 7:30 p.m.

Free Homebuyer Seminar (reminder)

**Saturday, October 22, 9:00 a.m. to 2:00 p.m., Marina Community Center, Thunderbolt Room, 15301 Wicks Boulevard**

- Due to recent demand, the Bay Area Homebuyer Agency (BAHBA) has joined the City of San Leandro's Housing Division in co-sponsoring a Free Homebuyer Seminar tomorrow.
- This seminar covers all aspects of becoming a homeowner. More information can be found on the Housing Division's webpage by clicking [here](#).
- Reservations are required to attend and can be made at <http://www.myhomegateway.com>.

East Bay Sustainable Business Trends and Awards

**Friday, October 28, 7:30 a.m. to 10:00 a.m., Oakland Asian Cultural Center, Pacific Renaissance Plaza, 388 9th Street, Suite 290 in Downtown Oakland**

- The East Bay EDA Fall Membership Meeting and Stop Waste Partnership Business Efficiency Awards will be held on October 28. Joel Makower, Chairman and Executive Editor of the GreenBiz Group will be the keynote speaker.
- Please let Yolanda Carrasco know if you would like to attend. Registration is free, but seating is limited.

Village Marketplace Second Community Meeting

**Wednesday, November 2, 7:00 p.m., Sister Cities Gallery, City Hall**

- The City will hold a second community workshop on November 2 to continue the conversation regarding the Village Marketplace.
- The designs for pedestrian and bicycle access, landscaping and hardscaping, the outdoor plaza and dining areas, and building elevations have been modified

and further developed based on input at the September 27 meeting. Additionally, a representative from Fresh 'N Easy Neighborhood Grocery will be present.

#### Police Department Promotion/Recognition Ceremony

**Friday, November 4, 4:00 p.m. to 5:00 p.m., Council Chambers, City Hall**

- The Police Department's Promotion/Recognition Ceremony will take place November 4.
- Employees who were promoted throughout the year will be recognized. Additionally, members of the Department who have performed at an exceptional work level will be acknowledged.
- If you would like to attend this event, please notify Yolanda Carrasco.

#### Building Our Assets – Strategic Planning Workshop

**Monday, December 5, 8:30am – 12 noon, Crowne Plaza, 45 John Glenn Drive, Concord**

- The *Building on Our Assets* report was released at an East Bay Economic Development Alliance (EDA) event last week that attracted over 300 attendees including City staff and numerous San Leandro business people. A copy of the report was distributed at the October 17 City Council meeting. Karen Engel, Executive Director of the East Bay EDA, is scheduled to present the report, including information on the San Leandro sub-region, at a December 12 City Council Work Session. Information on the Central Alameda County sub-region, which includes San Leandro, can be found on the East Bay EDA's website at the following link: [http://www.edab.org/research\\_facts\\_figures/Studies/BuildingOnOurAssetsReport2011/BusinessDynamics/CentralAlamedaSubRegionalBusinessDynamics.pdf](http://www.edab.org/research_facts_figures/Studies/BuildingOnOurAssetsReport2011/BusinessDynamics/CentralAlamedaSubRegionalBusinessDynamics.pdf).
- Using information from the newly released Building on Our Assets: Economic Development & Job Creation in the East Bay report, the EDA is planning a regional strategic planning session on December 5. The goal of the strategic planning session is to promote cross-sector collaboration to improve the business climate, attract investment, enhance education and workforce training, and upgrade infrastructure and land use.
- The event is for East Bay EDA members and partner organizations. City Economic Development staff will be in attendance, and Councilmember participation is encouraged. Please let Yolanda Carrasco know if you would like to attend.

## **Council Information**

One-Year Extension of the Community Assistance Grant Program for FY 2010-2012 Funding Cycle (staff report attached)

- The Human Services Commission and City staff recommend extending the FY 2010-2012 Community Assistance Grant Program (CAP) contracts for one year. The reasons for extending the contracts for one year are outlined in the attached staff report.
- There will be no Request for Funding Proposal (RFP) process for the upcoming FY 2012. The Human Services Commission will re-evaluate both the CAP Program and its upcoming funding cycle after the one-year extension ends.

#### East Bay 2011 – 2012 Resource Guide

- The East Bay Economic Development Alliance has released the East Bay 2011-2012 Business Resource Guide. This beautiful full color publication highlights the tremendous assets and resources the region and its individual cities have to offer. Loaded with stunning photographs and compelling statistics, the guide is an invaluable business attraction tool. Since your packets have already been delivered this week, a copy of the Guide will be included in your packet next week.
- This printed guide is available at the City's business license kiosk, in the Office of Business Development as well as at the main library. Copies have also been provided to the San Leandro Chamber of Commerce. The guide is also available for download at: <http://www.sanleandro.org/civica/filebank/blobload.asp?BlobID=9657>.

## Council Follow-Up

### Possibility of Free Solid Waste Collection Services to Public Schools in the L-3 Area

- As was requested at this week's City Council meeting, the Oro Loma Sanitary District Board met on October 18 to discuss the City Council's request for the District to provide free solid waste collection services to public schools in the L-3 area.
- The General Manager has reported that the Board discussed the request and is evaluating several options prior to finalizing a response. The Board will be meeting again on October 24 with the intent of finalizing a response.

## Businesses in the News

### OSIsoft Partners with Power Analytics Corporation to Help Military Facilities Meet Energy Efficiency Goals (press release attached)

- San Leandro based OSIsoft, LLC announced they will be partnering with Power Analytics Corporation to improve the reliability and energy efficiency of United States military facilities, while reducing the cost of mission-critical electrical power infrastructure in order to meet "Net Zero" and 2020 energy reliability and reliability mandates. As a result of the technical collaboration between these two market leaders, industries where electrical power problems can occur, such as military facilities, data centers, power grids, petrochemical, and the oil and gas platforms will have the ability to dramatically increase both reliability and energy efficiency.
- "We are very pleased to strengthen the ties between Paladin and OSIsoft in a manner that will deliver higher-capability real-time solutions to the broadest possible range of customers," said Kevin Meagher, Chief Technology Officer for Power Analytics Corporation.
- OSIsoft is featured on the East Bay Green Corridor's homepage as the "Featured Green Business."  
<http://www.ebgreencorridor.org/>

### Attracting Businesses at the Speed of Light

- A website promoting Lit San Leandro went live this week. The website promotes San Leandro as an enviable location with good transportation, affordable housing prices, pleasant neighborhoods and civic infrastructure. Check it out at [www.litsanleandro.com](http://www.litsanleandro.com).
- The website was created by OSIsoft/San Leandro Dark Fiber as a tool to attract potential users of the system.

- On April 4, 2011, the Public Safety Realignment Act (Assembly Bill 109) was signed into law by Governor Jerry Brown. The policy changes in the Act focus on alleviating overcrowding in the California State prisons and reducing the state corrections budget.

### Business Association of South San Leandro (BASSL) and the Halcyon Foothill Neighborhood Association

- The BASSL and the Halcyon Foothill Neighborhood Association are hosting Councilmember Ursula Reed's "State of the 2nd District" Address on Tuesday, **October 25**, from 7:00 p.m. to 8:30 p.m. at the Senior Community Center, 13909 East 14th Street.

## **CITY OF SAN LEANDRO**

### **STAFF REPORT**

**Date:** October 17, 2011

**To:** Lianne Marshall, Interim City Manager

**From:** Luke Simms, Community Development Director  
Carolyn Knudtson, Recreation & Human Services Director  
Tom Liao, Planning & Housing Manager

**By:** Joann Oliver, Recreation & Human Services Manager  
Steve Hernandez, Housing Specialist I

**Subject:** ONE-YEAR EXTENSION OF THE COMMUNITY ASSISTANCE GRANT PROGRAM FY 2010-2012 FUNDING CYCLE

---

### **SUMMARY AND RECOMMENDATION**

At the recommendation of the Human Services Commission and staff, the FY 2010-2012 Community Assistance Grant Program (CAP) contracts will be extended for one year. The City Council Housing and Business Development Committee considered this matter on October 13, 2011 and concurred with the recommendation.

This report is for information only, and no action is required.

### **BACKGROUND**

The Community Assistance Grant Program (CAP) provides financial support to non-profits providing social services and programs for individuals and families living in San Leandro. The CAP Program is currently in the second year of the FY 2010-2012 grant cycle, and it is time to start the Request for Funding Proposal (RFP) process for the next funding cycle (FY 2012-2014). Due to the uncertainty of federal Community Development Block Grant (CDBG) funding, which is the only funding source for the CAP Program, the Human Services Commission and Staff recommend extending the current contracts for one year. There will be no RFP process for the upcoming FY 2012.

### **DISCUSSION**

The City Council Housing and Business Development Subcommittee considered this matter on October 13, 2011 and concurred with the recommendation. Following is a summary of the reasons for the 1-year extension for the current Community Assistance contracts:

- There is discussion at the Federal level of further cuts to CDBG funding. This makes it difficult to do the RFP because the amount of funding available is unknown. In fact, due to cuts in CDBG, the second year funding for the FY 2010-2012 funding cycle was reduced from \$117,880 to \$98,383. Further cuts will impact the number and types of services that can be funded.

- The funding criteria established by the Human Services Commission for the current grants are services that meet critical basic needs or mandated services (housing, food, health care, mental health, etc.). The current grantees meet these needs, and all the agencies are in compliance with their grant requirements. Presumably, these same agencies will most likely be funded again because of the critical services they provide.
- The Human Services Commission and Staff felt that the application process is a lot of work for the agencies and it is not fair to put them through this process when it is uncertain how much CDBG funds will be reduced further and how much money will be available.

CDBG regulations allow an extension of the current contracts. Agencies will be required to submit a new application and updated objectives.

Over the next year, the Human Services Commission will re-evaluate the Community Assistance Grant Program to consider if it should be modified in consideration of current funding levels and make further recommendations to City Council.

## **CONCLUSION**

The current CAP contracts will be extended for one year. There will be no RFP process for the upcoming FY 2012. The Human Services Commission will re-evaluate the CAP Program and the next funding cycle.

# OSIsoft and Power Analytics Corporation to Provide Infrastructure for Net Zero Facility Initiatives

Oct. 18, 2011, 12:00 p.m. EDT

SAN LEANDRO, Calif., Oct 18, 2011 (BUSINESS WIRE) -- OSIsoft, LLC ([www.osisoft.com](http://www.osisoft.com)), provider of the PI System and the leader in real-time data and events infrastructure solutions, today announced they will offer combined solutions with Power Analytics Corporation to improve the reliability and energy efficiency of United States military facilities while reducing cost of mission-critical electrical power infrastructure in order to meet "Net Zero" and 2020 energy reliability and reliability mandates.

This agreement will implement OSIsoft's PI System(R) infrastructure for the management of real-time data and events in conjunction with Power Analytics' Paladin(R) Live(TM) and Paladin(R) SmartGrid(TM) platforms to reduce U.S. military risk. OSIsoft and Power Analytics have previously collaborated on a range of advanced projects including financial and e-commerce data centers and the University of California, San Diego microgrid.

OSIsoft's PI System(R) infrastructure will provide U.S. military facilities with insight into their operations with secure real-time data. Power Analytics' Paladin(R) Live(TM) and Paladin(R) SmartGrid(TM) will provide real-time power network management and real-time power grid optimization. Both offerings are intended for high performance, real-time operating environments where power problems could have costly or catastrophic consequences. As a result of the technical collaboration between these two market leaders, industries where electrical power problems can occur, such as military facilities, data centers, power grids, petrochemical, and the oil and gas platforms -- all markets in which both companies already have significant customer bases -- will have the ability to dramatically increase both reliability and energy efficiency.

"We are very pleased to strengthen the ties between Paladin and the OSIsoft PI System in a manner that will deliver higher-capability real-time solutions to the broadest possible range of customers," said Kevin Meagher, chief technology officer for Power Analytics Corporation. "Customers with mission-critical requirements will enjoy unprecedented insights into their electrical infrastructure and advance warnings about on pending issues such as electrical power problems with sufficient time to avoid them."

"We see this collaboration as yet another mission critical and strategic initiative where OSIsoft's expertise in streaming data and events will make a significant contribution in developing better situational awareness, driving continuous improvement and building a more robust and sustainable approach to smart energy management for critical facilities," said OSIsoft president Bernard Morneau.

## About OSIsoft, LLC

OSIsoft ( [www.osisoft.com](http://www.osisoft.com) ) delivers the PI System, the industry standard in enterprise infrastructure, for management of real-time data and events. With installations in 110 countries spanning the globe, the OSIsoft PI System is used in manufacturing, energy, utilities, life sciences, data centers, facilities, and the process industries. This global installed base relies upon the OSIsoft PI System to safeguard data and deliver enterprise-wide visibility into operational, manufacturing and business data. The PI System enables users to manage assets, mitigate risks, comply with regulations, improve processes, drive innovation, make business decisions in real time, and to identify competitive business and market opportunities.

Founded in 1980, OSIsoft, LLC is headquartered in San Leandro, CA, with operations worldwide and is privately held. Learn more about OSIsoft and the PI System at [www.osisoft.com](http://www.osisoft.com) .

## **Builders Pile into Peninsula**

Downtown boom draws crowd to prime Redwood City site

Premium content from San Francisco Business Times by J.K. Dineen, Reporter

Date: Friday, October 7, 2011, 3:00am PDT

Redwood City's scheme to redevelop a prime corner of its downtown is picking up speed as more than 20 builders have zeroed in on the site.

While not all will end up responding to the city's request for qualification, which is due Oct. 17, developers who attended the pre-submittal meetings include **TMG Partners**, **Tishman Speyer**, the **Sobrato Organization**, **Carmel Partners**, **Graystar**, the Hanover Co., HunterStorm LLC, **Essex Property Trust**, Raintree Partners, Sares/Regis, TRG Pacific Development, and **Wilson Meany Sullivan**, according to public records.

Including architects and contractors, 61 companies either attended a Sept. 30 meeting or met privately with Redwood City planners about the opportunity.

"Based on the seriousness of the questions they are asking, I would say around 10 will respond," said planner **Dan Zack**, the author of Redwood City's downtown plan and designated planner in charge of implementing it.

The RFQ deadline comes at a time when Redwood City is seeking to spark phase two of a downtown revival that started to take shape between 2002 and 2007 with the \$10 million restoration of the Fox Theater, the opening of the 20-screen Century 20 Downtown Redwood City, and the \$52 million Courthouse Square project. The trio of entertainment developments has turned downtown Redwood City into a place that is vibrant on weekend nights, but doesn't have enough office workers or residents to support retail the rest of the time. About 25 percent of downtown retail space is vacant.

The RFQ seeks developers interesting in buying and developing two parcels next to the downtown Caltrain station. Block 2 is a 2½-acre surface parking lot bordered by Jefferson Avenue, Middlefield Road and the Caltrain tracks. The plan allows for 12-story buildings, but does not dictate specific uses. Housing, office, retail and entertainment will all be considered. A second smaller parcel is available on Windsor Street, and the city is hoping a boutique hotel will be built there. Whatever is built on Block 2 must replace the 211 parking spaces currently on the site.

Over time, interest in Block 2 has changed. At first, nearly all the developers were interested in developing office buildings. Late in the game, the site has increasingly drawn apartment developers like the Hanover Co., Raintree Partners, Essex Property Trust, Carmel Partners and Graystar.

"Lately there has been a lot of residential, but we don't know what the ratio of office developers to residential developers will be," said Zack. "That is something I'm curious about. And will there be anyone proposing both on the same site — maybe an office tower and a residential tower?"

The process could be influenced by the recent sale of two privately owned parcels that abut Block 2, a 10,000-square-foot lot that was previously a Mexican restaurant, and a 3,500-square-foot, run-down vacant office building. One of the developers looking to take on Block 2, Hunter Properties, bought both parcels, which could give it more flexibility in conjuring up a design.

Developer **David Irmer**, president of Innisfree Cos., sold the 10,000-square-foot restaurant site to Hunter Properties on Aug. 10. Irmer, who has developed multiple projects in Redwood City, said he had offers from five of the developers chasing Block 2.

“In my view, those parcels should go together with the city project, they should all be integrated into one development,” he said. “The Deke Hunter and Ed Storm team bring a lot to the table. They have been developing in Redwood City for a number of years and know the significant players and the political process.”

David Irmer of Innisfree Cos. sold property adjacent to the highly coveted Block 2.

The developers in the running didn't return calls seeking comment or declined to comment because they didn't want their competitors to know what they were planning to do.

Zack said the respondents will likely be narrowed to the three strongest finalists.

“We want to move quickly because there appears to be a window in the market right now,” he said. “We will pick a developer as quickly as we can while making sure we get the right people on board.”

Once the city Planning Department recommends a developer, Redwood City's City Council has to sign off on the selection.

Elsewhere downtown, Raintree Partners in August filed an application to build 116 units at 201 Marshall St., the first project submitted under the new downtown plan rezoning. **Jason Check**, development director at Raintree Partners, told the Business Times in August that he hopes to be under construction by the end of the year. The project would appeal to young professionals who want to commute by train to San Jose or San Francisco.

“Downtown Redwood City certainly seems to be coming of age,” said Check. “There have been a lot of challenges to the (downtown plan) and it seems like now the city has the wind at its back.”

# **Oakland Has Big Plans For Area Near Coliseum**

Premium content from San Francisco Business Times by Blanca Torres, Reporter

Date: Friday, October 14, 2011, 3:00am PDT

Oakland city leaders are looking to a 750-acre area in East Oakland as a future hub of corporate offices and large-scale entertainment, retail and housing development.

The City of Oakland has issued a request for proposals for a \$3 million contract to produce two specific plans and an environmental impact report for areas surrounding the Coliseum and near **Oakland International Airport** that straddle Interstate 880. The designated area also includes part of the Oakland Estuary shoreline.

“The city envisions this area as a location for sub-regional corporate headquarters, combined with a sports and entertainment complex, all accessible to multiple modes of transportation,” the request for proposals states.

Proposals are due Oct. 28 and the city expects to award a contract in February. The City Council and Mayor **Jean Quan**’s office were eager to see the process move forward, said **Eric Angstadt**, Oakland’s deputy director of planning and zoning.

After the contract is awarded, it could take at least a year and a half for the plans and environmental impact report to be completed.

“(A specific plan) sets out the character you want for the area and sets out the rules and the procedures for how you develop the area,” he said.

Once established, the EIR and specific plans can also make it faster and cheaper for developers to entitle new projects.

For years, city leaders have envisioned a denser, more vibrant uses for the areas surrounding the Oakland-Alameda County Coliseum Complex that is home to the A’s and Raiders stadium and Oracle Arena, where the **Golden State Warriors** play, that draw thousands of fans on game days.

The concept, dubbed “Coliseum City,” mirrors L.A. Live, a restaurant, retail, nightclub and entertainment complex near the **Staples Center** where the Lakers’ professional basketball team plays in downtown Los Angeles.

Revamping East Oakland “would develop and drive economic return for the benefit of the entire Oakland community through job generation and employment,” according to the RFP.

Housing developments such as the **East Bay Asian Local Development Corp.**’s Lion Creek Crossing affordable housing project of more than 400 phased units and a proposed transit village on the BART property are already planned for the area, but city leaders want to see more retail and entertainment options injected, as well as a new sports facility and hotels.

The area near the airport is home to an existing business park built in the 1980s, a big- box retail center anchored by **Wal-Mart** and a Toyota dealership.

The city envisions more modern and dense office development that would cater to industries such as biotechnology, life sciences, research and development, multimedia, green tech and other industries, including artisan food production.

“Several of these industries are experiencing robust growth with great potential for the future and may be attracted to the site due to its proximity to Oakland International Airport,” the RFP states.

Still, office space near the airport typically has some of the highest vacancy rates in Oakland. During the third quarter, the area had 29.6 percent vacancy in the 1.8 million square feet of existing office space, according to **Grubb & Ellis**.

“(The airport) is one of the lowest rental rate submarkets in the area and as a result of that some of the buildings haven’t been maintained,” said **Bill Nork**, a broker with **Cornish & Carey Commercial Newmark Knight Frank**.

The 750-acre area also encompasses the \$500 million Oakland Airport Connector that will provide train access from the Coliseum BART station to the airport.

# Alameda County

## Criminal Justice Realignment/AB 109

### Fact Sheet

### October 2011

#### Overview of Realignment

On April 4, 2011, the Public Safety Realignment Act (Assembly Bill 109) was signed into law by Governor Jerry Brown. The policy changes in the Act focus on alleviating overcrowding in the California State prisons and reducing the state corrections budget. This is achieved largely through transferring responsibility for incarceration and supervision of many low level inmates and parolees from the California Department of Corrections and Rehabilitation (CDCR) to the county level. AB 109 goes into effect October 1, 2011.

Criminal justice realignment does not allow early release for any inmates currently in state prison or county jail. AB 109 and subsequent clarifying legislation shifts three criminal justice populations from state to county responsibility beginning October 1, 2011:

- 1) Inmates in State Prison for non-violent, non-serious, non-sex offenses will be released to local supervision, not state parole. This population is referred to in AB 109 as "Post Release Community Supervision."
- 2) Defendants newly convicted of non-violent, non-serious, non sex offenses (who also do not have any prior serious, violent, or sex offenses) cannot be sentenced to State Prison, but generally only to the following options:
  - County jail only (which can be served on available alternative custody programs)
  - Probation only
  - Combination of a term in county jail and an imposed term of mandatory supervision by the Probation Department.
- 3) All people on parole who violate the terms of their parole cannot be revoked and sent to State Prison. They can be revoked and sent to county jail for up to 180 days. Parolees who were originally given a life sentence are excluded and can be sent to state prison for violations.

#### The Impact on Alameda County:

- According to CDCR and Department of Finance (DoF) statistics, there are 848 inmates currently in State prison who will be released to Post Release Community Supervision in Alameda County over the course of three years. In the first Fiscal Year (October 2011 through June 2012), 577 inmates are estimated to be released to Post Release Community Supervision (PRCS).

- Individuals newly convicted of non-violent, non-serious, non-sex crimes after October 1 (who have no prior conviction for serious, violent, or sex crimes), who would have otherwise been sentenced to state prison can be sentenced to local, county jail. The Sheriff's Department estimates that there will be up to 47 new inmates admitted each month into Santa Rita Jail due to Realignment. DoF estimates that Alameda County's average daily jail population could increase by 267 inmates when realignment is fully implemented.
- Individuals newly convicted of non-violent, non-serious, non-sex crimes after October 1, who would have otherwise been sent to state prison can also be sentenced to a term of mandatory supervision by the Probation Department upon completion of a sentence in county jail. This will be an additional increase in the population to be supervised by the Alameda County Probation Department (above and beyond the state estimated 848 inmates who are currently in state prison who will be released to local supervision)
- With rare exception, those parolees who violate the terms of their parole can only be incarcerated in county jail. This will mean an additional increase to Alameda County's jail population.
- Due to the limited incarceration sanction of parolees, the District Attorney may decide to prosecute more new cases for parolees rather than rely merely on the sanction that results from the parole violation process. This could result in the increase in prosecutions in the county.
- Due to the transition from state to county responsibility of the realignment population, Alameda County will have to provide additional supports, services, and opportunities to individuals who used to be eligible for state-funded services.
