

San Leandro Creek Trail Master Plan Study

Project Fact Sheet

In July 2014, the City of San Leandro was awarded \$201,510 from the State of California Department of Transportation (Caltrans) State Highway Account – Partnership Planning for Sustainable Transportation grant program. The grant allows for the development of the San Leandro Creek Trail Master Plan Study (a feasibility study), design concepts, and implementation strategy for the possibility of segments of a multi-use trail along San Leandro Creek through the cities of San Leandro and Oakland. Approximately 2.1 miles of the creek are located in the City of San Leandro, 2.1 miles in the City of Oakland, and 1.8 miles runs along the border of the two cities.

The San Leandro Creek Trail Master Plan Study project will build on several years of partnerships and community outreach which analyzed the corridor by engaging hundreds of diverse residents in envisioning how a greenway could enhance access to recreation, schools, and transit while promoting regional sustainability.

SAN LEANDRO CREEK TRAIL MASTER PLAN STUDY

Public Benefits of multi-use trails

A new trail would offer a unique opportunity to provide an amenity for **residents, employees, and visitors** to San Leandro and Oakland. The trail could be used by **walkers, runners, and cyclists** to enhance access to schools, churches, parks and business in the community. The multi-use trail could bring awareness to the creek while **improving** water quality, **increasing** habitat for native species, and **protecting** areas of historical, cultural, and ecological significance.

How to get involved:

1. Visit the project website for most recent updates:
www.sanleandro.org/slreek
2. Sign-up for the project notification list, visit:
<https://www.sanleandro.org/depts/cd/projects/slreek/form.asp>
3. Participate in any of the 4 public community workshops.
4. Complete the community survey:
<https://www.surveymonkey.com/r/9ZQCLGQ>
5. Contact Anjana Mepani at 510-577-3348 or
amepani@sanleandro.org
